

Set over 4000 sq ft in a converted warehouse, Pro 2 Recording Studio is an established business, which has been helping musicians for over 25 years. Pro 2 uses the Pro Tools HD3 system, monitoring from B & W Nautilus 801's and has AC climate control throughout, making us the leading studio in Yorkshire. The studio now also boasts a Daneman Boudoir Grand Piano. David Ashman is an experienced producer, engineer and composer. His time in the industry has seen him work on all kinds of projects from demos and full albums for unsigned bands, major projects and well-known artists and producers, to TV and radio commercials for international corporations. The combination of David's skills, the awesome array of equipment and the relaxed setting, ensure a professional and productive environment, perfect for every type of audio production.
